THE SHIPPING STARTS HERE

Together with a group of well experience staffs, we established Apex International. We take this step to face the new challenge and new century that lies ahead of us.

Today logistics goes beyond the traditional functions of cargo handling, inventory management and transportation arrangement.

As the world move towards a knowledge base and hi-tec transportation, we are here to participate and enable a smooth excellent service.

We conduct our business in accordance with high ethical standards. Transparency, integrity and professionalism are our hallmarks because we believe in long-term mutual benefit for the client and ourselves.

We attribute our success to ability and willingness to respond to the constantly changing market environment that has come to characterize the field of international trade.

To meet these challenges, Apex International offers an array of services tailored to the needs of each individual customer.

WE BELIEVE

History has demonstrated that most notable winners usually encountered heartbreaking obstacles before they triumphed.

They won because they refused to become discouraged by their defeats. We do encountered obstacles and we learnt from it.

We, the team at APEX always believe that it is the will and determination that keep us where we were.

We believe that the difference between a successful team and others is not lack of strength or knowledge but rather lack of will and team determination.

My team and I will continue to work very hard to serve you all and your continue support will not gone unnoticed.

We will certainly stay focus and committed to serve you all.

May I say, thank you very much and we always remain.

Review room temperature and decrease CO2 As part of the strategy to reduce the Greenhouse effect, the government, since 2008 is promoting the 'Cool Biz' and 'Warm Biz' movement. This campaign has allowed the electrical and cooling consumption to be reduced in term of CO2 compared to the last year for both Tokyo HQ and Osaka office. We, as a corporation are contributing to the decrease of CO2 in the Greenhouse effect. We are currently continuing the 'Cool Biz' and 'Warm Biz' campaign.

At APEX office, we are continuing our efforts to contribute to saving and resources by Turning off unnecessary lights, turning off standby electricity and practice double sided printing.

By reducing the number of shared printers, we also reduced to the reduction of energy. Riding bicycle to pick up documents and sales activities.

Within the business center, we conducted by using environment friendly bicycle.

WE GO GREEN
